DTX-1800 Trade-Up Program

With over one billion links already certified with the Fluke Networks DTX CableAnalyzer™, it's no surprise this tester is the most trusted certification tool around. The DTX is endorsed by the world's leading enterprises and cabling manufacturers. And with over 50.000 units installed, the DTX is the #1 in copper & fibre certification.

Big deal? We think so. Because we know that when it comes to your business, you're better safe than sorry. When you analyse and certify networks standards, **compliance and reliability are key.** You don't want false passes, as this could result in costly trips back to the site and damage to your reputation. We like to think that our testers help installers **build their business through trust.**

Now is the perfect time to switch to the DTX CableAnalyzer™. Why? Because you receive a **rebate voucher** – which could be worth as much as € 3.500,-! – by trading in your old cable tester. Simply buy a new DTX-1800 configuration and give us your old tester (any make or brand) and the voucher. We'll take care of the rest. **You can also trust us on that!**

REBATE OFFER

DTX-1800	DTX-1800 M/O	DTX-1800 MS/MO/MSO
€ 1.750,-	€ 2.500,-	€ 3.500,-
